Analytics Overview/Instructions

BankNews.TV introduce Canadian bank analytic reports. These reports offer over 22 metrics from net interest margin to capital adequacy ratios. The data goes back 20 years and offers several ways to slice and dice the data: from bar charts to line charts.

All amounts in millions of dollars

The screenshot shows the BankNews.TV analytics interface. It features four main dropdown menus: 'Choose criteria', 'Choose chart type', 'Choose Fi or Fis', and 'Choose time frame'. The 'Choose criteria' dropdown is open, showing a list of 22 metrics. 'Assets Distribution (Pie Chart)' is selected and highlighted in blue. The 'Choose chart type' dropdown is set to 'Bar chart'. The 'Choose Fi or Fis' dropdown is set to 'Select a Bank:'. The 'Choose time frame' dropdown is set to 'Select a transe'. A sample pie chart is visible on the right, showing the asset distribution for all domestic Canadian banks over time. The pie chart is divided into six categories: security (9%), deposit (27.9%), Loan (12.8%), Mortgage (47.3%), Fixed (0%), Insurance (0%), and Others (0%).
